- 3. ADHESIVE

- 4. WASHI TAPE
- 5. STICKERS!
- 6. SMALL ENVELOPES

- 7. PATTERNED PAPER
- \* TREATS TO TUCK INSIDE!

# HOW TO MAKE A HAPPY FOLD POCKET CARD

1

Take two cards and use adhesive to attach the front of one card to the inside right panel of the other one to make a trifold.

2

Cut your third card in half vertically and then cut that half in half horizontally.

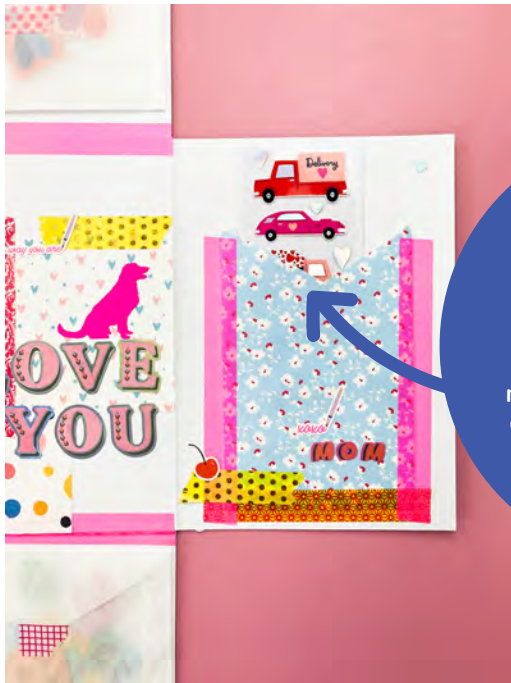

3

Use washi tape to attach these two pieces to the top and bottom of the center of your trifold. You now have a fancy fold “base” to build on!

4

Attach smaller envelopes (and/or make pockets with patterned paper) to the panels using adhesive or washi tape. Slip notes, sticker flakes, and other treats into these pockets. Use washi tape, stickers, and pens to decorate the card inside and out!

# Inspiration + Ideas

These little pockets make the card such a treasure! Tuck sticker sheets, tea bags, wash samples, love notes, tickets, cash, recipes, magazine cut outs and more inside to deliver lots of surprise treats!

Upcycle your craft packaging! Repurpose cellophane wrapping to create little envelopes!

Get creative with your cutting and the orientation of your card. Make a decorative edge on your panels!

Use postcards and other cards to add more flaps INSIDE the card and hide little messages underneath!
