

STICKER MANIFESTO

We, the Pipsticks Sticker Club, believe that stickers are fun. Stickers are magical. Stickers can change the world.

We live for that butterflies-in-your-stomach feeling that we get when we're around them and feel our hearts beat faster at the thought of acquiring new designs.

We indulge in the ritual of sticker collection, enchanted by their metallic foils, spellbound by their sparkles, in awe of their puffiness, and intoxicated by their scratch n' sniff smells.

We delight in decorating the objects in our lives with the stickers that we can bear to use (we do not hoard! Rather, we reserve the right to cherish and keep the stickers that speak to our souls).

We fully embrace the responsibility that comes with this passion! We will unleash the power of stickers on those who haven't had the joy of experiencing them, and remind those who have forgotten the magic they hold.

We understand the power of stickers to unite people of all ages, backgrounds, and ideologies. We will work together, to connect with each other over little joys, share our inspirations, and turn every day into something extraordinary.
